Communication competence is vital for attaining most goals in life. In order to help students apply theoretical lessons to their own skills, In the Company of Others uses an organizing "communication competence model" to provide students with direction and guidance as they explore and improve their own communication processes. Marked by J. Dan Rothwell's signature wit, this new edition engages students more than ever with its lively mixture of examples (drawn from pop culture, sports, and today's headlines), anecdotes, and illustrations. Focusing on the contexts of interpersonal, small group, and public communication, this introductory text integrates coverage of gender and culture throughout, giving these areas special attention early on in Chapter 3. Further discussions include cultural differences in perception and non-verbal meanings, cross-cultural friendships and romantic relationships, and gender and cultural bias in the workplace. In addition, the text incorporates coverage of technology and its impact on communication throughout. Topics include virtual groups, technology's effect on dating relationships, and the use of PowerPoint in public speaking. The book also features distinctive coverage of power, treating it as a central variable within all communication. The streamlined third edition also presents a variety of new examples and enhanced pedagogical features: * Developing Communication Competence boxes offer self-tests that help students assess their own communication skills and progress. Topics include nonverbal communication abilities, assertiveness, listening capabilities, and responsiveness. * Focus on Controversy boxes examine ethical issues and instances in which communication research is instrumental in debunking assumptions and pop culture myths. Coverage includes cyberaddiction, the credibility of Wikipedia, the debate over animals' linguistic abilities, and the relationship between gender and aggression. * Film School sections explore communication concepts in popular films, such as conflict management in Knocked Up and family dialectics in Juno. A unique blend of research, scholarly insight, and humor, In the Company of Others, Third Edition, is ideal for introductory communication courses.
